---

## OBJECTIVE

Detail-oriented and creative frontend developer with a strong foundation in Information Systems and hands-on experience in designing, developing, and optimizing interactive, user-focused web applications. I am passionate about leveraging modern technologies and frameworks to craft innovative solutions that enhance user experiences. Seeking a dynamic role in a forward-thinking organization where I can apply my skills and grow professionally while contributing to the company's success.

---

## EXPERIENCE

JAN 10, 2024 - Present

- **Frontend Developer**

Origin Technologies, Onsite

- Developed user interfaces with the help of frontend frameworks like React or Next.js

- Collaborated closely with UI/UX designers to translate wireframes and designs into interactive HTML, CSS, and JavaScript.

- Conducted testing for usability and fixed bugs, ensuring cross-browser compatibility and mobile responsiveness.

- Optimized websites and applications for speed and scalability.

- Managed and tracked changes to the codebase using version control systems like Git.

- Continuously learned new technologies and kept up to date with industry trends and advancements.

- Participated in code reviews and refactoring to maintain high-quality code.

- Collaborated with backend developers to integrate server-side logic with the frontend using APIs.

SEP 11, 2024 - Nov 21, 2024

- **Frontend developer**

SiyahaTech- (Contract) Washington, USA

- Developed a sophisticated, user-friendly School Management System web application using React and Tailwind CSS.

- Integrated frontend with backend APIs to enable secure and efficient communication, ensuring seamless data flow.

- Optimized user interfaces for performance and responsiveness during backend integration.

- Collaborated with the development team to align frontend functionality with backend logic, maintaining a cohesive system architecture.

- Utilized GitHub for version control, branch management, and collaborative code reviews, adhering to best practices.

- Contributed to the mobile application development with React Native, ensuring alignment with the web platform's aesthetics and functionality.

- Displayed strong problem-solving skills by troubleshooting integration issues and adapting to technical challenges effectively.

- Demonstrated excellent teamwork and communication, fostering a collaborative and efficient workflow.

SEP 1, 2023 - JAN 8, 2024

- **Software Developer**

Remote (Freelancing)

- Proficient in HTML, CSS, JavaScript, TypeScript, React, React Native, TailwindCSS, and Next.js,

with experience in building dynamic, user-friendly web and mobile interfaces.

- Developed and maintained responsive, mobile-optimized web applications, ensuring seamless user experiences across devices.
- Translated complex design wireframes into clean, scalable code, adhering to best practices and modern standards.
- Enhanced application performance through advanced optimization techniques, reducing load times and improving efficiency.
- Integrated RESTful APIs for dynamic data fetching, ensuring smooth communication between frontend and backend systems.
- Leveraged tools like TanStack Query, Axios, and Fetch API to interact with databases and manage data flow effectively.
- Utilized Bootstrap and TailwindCSS for responsive design, combined with Next.js for efficient, server-side rendered React applications.
- Delivered accessible, WCAG-compliant applications with a focus on usability and inclusive design.
- Collaborated with clients to gather requirements, provide solutions, and deliver high-quality products on time.
- Demonstrated strong problem-solving skills, clear communication, and adaptability in freelance and remote team environments.

NOV 21,2022 - JAN 8,2024

- **IT Officer**  
Horra Corporate Group
  - Managed computer systems, including hardware, software, and networks, while providing end-user technical support and troubleshooting.
  - Ensured data security through robust measures and implemented IT policies to optimize technology use across the organization.
  - Monitored and optimized network performance to maintain efficient and reliable operations.

SEP 1, 2021 - OCT 8, 2021

- **Intern Software tester**  
Condigital Technologies P.L.C
  - Assessed software bugs and compiled findings along with the suggested resolutions for development team members.
  - Studied business requirements and Technical specifications to create test strategies.

## EDUCATION

---

2018 - 2022

- **Hawassa university**  
Bachelor degree in Information systems  
3.76 CGPA

2003-2018

- **Fountain of knowledge school**  
From nursery school to preparatory school

## SKILLS

---

- Web development
- MySQL
- Front end development
- React
- JAVASCRIPT
- Typescript
- HTML5
- Tailwind css
- Next.js
- Network engineering
- Cross platform testing
- Python

## PROJECTS

---

- **Web based Cinema reservation and payment system**

I worked on cinema seat booking system for my final year thesis project.

Results: members of the cinema website can book seat of preference remotely, and payment system is built with my own simulation concept of wallet.

- **School website**

I have built a responsive school website for an islamic school to make all the school programs,schedules and courses available to the public.

- **Gate-pass system**

I have built a gate pass system for a company to control the flow of items and employees going in and out of the company daily.

## ACHIEVEMENTS & AWARDS

---

- CISCO CERTIFIED CCNA
- Certification for the completion of typescript course.
- CCNA: Enterprise Networking, security and Automation badge and certificate.
- CCNA: Switching, Routing and wireless essentials badge and certificate.
- CCNA: ITN badge and certificate
- Certification for competence in international English examination.
- -Certification for mobile and smartphone maintenance.
- Certification for great distinction.
- TOEFL
- Certification for participation in scout club .
- Academic progress certificate.
- Certification for diploma .
- DRIVING LICENSE.

## INTERESTS

---

- Programming
- Software development and deployment
- Artificial Intelligence
- Project management
- Business

## LANGUAGES

---

- Read - English, Amharic, Arabic Write - English, Amharic, Arabic Speak - English, Amharic
